Made in New Jersey Day
Thursday, March 15, the State House

Meet the Manufacturers Who Operate in Your News Organization's Backyard

They stop airplanes from skidding off runways. They help light the way for members of the armed forces. They satisfy our sweet tooth, help us clean our homes and fill our printers with paper.

These are just a few of the thousands of products that are made in New Jersey, some of which will be on display during the New Jersey Business & Industry Association's (NJBIA) Made in New Jersey Day on Thursday, March 15 at the State House.

(See below *description of the participating companies and the towns in which they are located*.)

NJBIA's Made in New Jersey Day celebrates New Jersey's manufacturing industry. Twenty-eight New Jersey manufacturers will display their wares in the halls of the State Capitol and tell their stories not only to the news media, but also to Lt. Governor Kim Guadagno and state legislators.

"Manufacturing in New Jersey has a great story to tell, and Made in New Jersey Day is our chance to tell it," NJBIA First Vice President Melanie Willoughby said. "Our manufacturers make great products and provide good-paying jobs for workers all over the state."

Made in New Jersey Day is also intended to call attention and resources to a valuable but vulnerable sector of the state economy that directly employs 247,000 people and indirectly provides jobs for thousands more.

With more than 21,000 member companies, NJBIA is the nation's largest state-level business association. For more information, contact Steve Wilson at 609-393-7707, ext. 245.

NJBIA's Made in New Jersey Day
—Exhibitors—

A Cheerful Giver – Elmer
A Cheerful Giver is a manufacturer of innovative, high-quality scented candles and fragrance products, such as potpourri, car air fresheners and air infusers. As part of a special-needs partnership, the company employs mentally challenged adults.
